***Next step, immediate relief for every
American taxpayer***

WASHINGTON, D.C. – Senator Bob Bennett (R-Utah) issued the following statement today after voting in favor of President Bush’s tax relief plan which cleared the House and Senate and now goes to the White House for the president’s signature:

“Today the crown jewel in George W. Bush’s agenda, the largest tax relief package in 20 years, cleared its last legislative hurdle. With strong bipartisan support, the president delivered what he promised. Once again he demonstrated his ability to successfully reach across party lines and lead. The tax relief provided in this bill will serve as a catalyst to job creation, further economic expansion and new opportunities for every taxpayer at every level of the economic scale.”
